GRIFFITH SORE AT ACTION OF UMPIRE EVANS IN FIRST GAME

By GEORGE L. MORELAND. Rain-No Game, stared the fans the face when they arrived lit the Florida avenue grounds yester-day but there were not so many that it required traffic cops to keep

them moving.

The weather man when asked the prospects replied: "They are bad."
Pesident-Manager Griffith informed first aid Capt. McBride that the boys could make it a movie day.

There was much discussion among the players yesterday over the man-ner in which the two umpires worked on Tuesday. This, of course. is always a past with the players but when they stack up against the work Billy Evans and Hildebrand pulled it is a different story.

Old Fox Is Sore. President Griffith is sore to the bone. Not because he was banished from the game but from the manner in which Evans turned the trick. Evans had been calling balls on Schacht when both the pitcher and catcher claimed they were being missed. Schacht gave the umps the laugh when he called one which Ed. Charrity seld was a pretty strike. Evans ran out to the twirler and informed him that he would not permit any busher to laugh at him and when he returned behind the bat he told Gharrity to tell Griff that he had better warm up a new pitcher as he was going to put in which Evans turned the

pitcher as he was going to Schacht out of the game. Charrity carried the message to his boss and the latter sent word back to the "arbitrator," as Nick calls them. that he had no recollection of hav-ing appointed him manager of the Washington club. This so riled Evans that he began to call both the pitcher and Griff many harsh

Griff had a ready reply for each one, and handed the word back as fast as Evans could send them over. "I never saw such work in my life," president's statement. Why, it was an outrage. He was neiting a riot, if any person ever There have been people ar rested for doing less than Evans did and I have warned him that the next time he ever pulls that stuff I am going to have him arrested. nope this will not happen but if he tries that again he will have to stand the consequences." Hildebrand Off.

Hildebrand was also way off in his work and he had no right to put Judge out of the game. To square himself, he called Harris safe, when he was out by a step.

The writer as well as many more saw the ball that Rice hit. It land-ed right on the chalk line in back of third base. Evans called it foul. of third base. Evans called it foul.

That of course was a mistake, but umpires are in such a position that they should not make mistakes of this kind. There was no person between the umpire and the ball, so why he made the decision is beyond me. It meant a three bagger, as Bob Veach was playing toward center and it would have been impossible for him to have gotten over to the ball in time to cut down a fast man like. The state of the decision is beyond with the state of the state of the decision is beyond the state of the state of

sible for him to have gotten over to the ball in time to cut down a fast man like Rice.

It is regrettable to have an umprire of Billy Evans' ability work like he did yesterday. He is sole judge of plays, but it is going at his mistakes.
